

RED LIGHT SAUNA

RED LIGHT & INFRARED SAUNA

HEAT + LIGHT TOGETHER

Infrared warmth and red light combined to deliver two trusted wellness modalities in one efficient, full-body session.

MODERN STANDALONE DESIGN

Its compact, all-in-one footprint delivers a premium wellness experience without requiring dedicated buildouts or complex installation.

BUILT FOR FREQUENT DAILY USE

Purpose-built for high-traffic environments, RedZone Sauna runs reliably day after day with minimal operational oversight.

KEY FEATURES

COMMERCIAL-GRADE INTERIOR

Durable, moisture-resistant surfaces wipe clean quickly and stand up to daily use

BUILT-IN SAFETY CONTROLS

Smart alerts and timer compatibility help sessions run smoothly and reliably

FULL COVERAGE RED LIGHT

Targeted wavelengths for full-body exposure

DUAL INFRARED HEAT

Far- and near-infrared warmth combined for a consistent, full-body heat experience

ENHANCED HEAT FLOW

Forced-air circulation helps deliver a noticeably warmer, evenly distributed heat experience throughout each session
