

# WELLNESS POD

By  
**RelaxSpace**

## RELAXATION POD FOR MIND AND BODY

### IMMERSIVE VISUAL EXPERIENCE

A high-resolution display fills the user's field of vision with calming visuals that help quiet the mind.

### GUIDED, MULTI-SENSORY SESSIONS

Breathing exercises, meditation content, scent infusion, and heated seating work together to create a structured reset.

### MODERN DESIGN

A sleek, eye-catching pod that fits easily into wellness spaces with no complex buildout required.

## KEY FEATURES

### HEART-RATE MONITORING

Real-time feedback helps users stay mindful and track their relaxation throughout each session

### HEATED LOUNGE SEATING

Gentle warmth enhances comfort and helps soothe tired, sore muscles throughout each session

### SELF-GUIDED OPERATION

Intuitive touchscreen controls make every session easy - no staff required

### GUIDED BREATHING & MEDITATION

Short, structured sessions help users relax and refocus

### VAST CONTENT LIBRARY

An extensive library of wellness, mindfulness, and educational content keeps each session fresh and engaging
